Lesson Plan

Generative AI for Script Development and Storytelling

TGS-2025056983 · MED-MED-3004-1.1 AI Content Generation for Script Development-3

v2.0 · 19 September 2026

UEN 201200696W

Document Version Control Record

Version	Release date	Change	Owner
v1.0	2025	Original Storytelling and Storyboarding with Generative AI release	Tertiary Infotech Academy
v2.0	19 September 2026	Rebuilt script development and storytelling courseware from the original deck and reference ebooks	Tertiary Infotech Academy

Contents

1. Topic 1: Story architecture, world-building and character systems
2. Topic 2: Prompt contracts, storyboard grammar and visual continuity
3. Topic 3: Script analysis, revision and multimodal production
4. Topic 4: Bias, authenticity and responsible creative control
5. Topic 5: Copyright, provenance and release governance

- Lab 01: Premise, story spine and beat architecture
- Lab 02: Character arcs, relationships and world bible
- Lab 03: Prompt contract and shot grammar
- Lab 04: Storyboard continuity and animatic plan
- Lab 05: Script parsing and diagnostic analysis
- Lab 06: Revision, voiceover and rough-cut plan
- Lab 07: Bias, culture and factual integrity
- Lab 08: Authenticity, privacy and disclosure gate
- Lab 09: Rights, licences and similarity review
- Lab 10: Provenance and final release packet

Programme

Two days · 16 hours of training · separate WA 60 minutes and PP 60 minutes. TSC: MED-MED-3004-1.1 AI Content Generation for Script Development-3

Day 1 · 8 training hours

Topic 1: Story architecture, world-building and character systems

Time	Topic and evidence	Slide range	Method
4 hours	Topic 1: Story architecture, world-building and character systems; Labs 01–02; artifacts and review evidence	10–49	Visual models, worked story artifacts, guided lab and review
Guided practice	Lab 01: Premise, story	11–27	Follow the LG

	spine and beat architecture · premise contract, story spine and two beat-map variants		procedure; save evidence and human review
Guided practice	Lab 02: Character arcs, relationships and world bible · character cards, relationship matrix, world-rule ledger and scene cards	31–47	Follow the LG procedure; save evidence and human review

Trainer demonstrates the mechanism and evidence gate; learners execute the detailed procedure from the Learner Guide and lab pack, then save evidence and a human approval decision.

Topic 2: Prompt contracts, storyboard grammar and visual continuity

Time	Topic and evidence	Slide range	Method
4 hours	Topic 2: Prompt contracts, storyboard grammar and visual continuity; Labs 03–04; artifacts and review evidence	52–91	Visual models, worked story artifacts, guided lab and review
Guided practice	Lab 03: Prompt contract and shot grammar · structured prompt pack, shot list and visual reference manifest	53–69	Follow the LG procedure; save evidence and human review
Guided practice	Lab 04: Storyboard continuity and animatic plan · six-panel storyboard, continuity ledger, rubric and timing plan	73–89	Follow the LG procedure; save evidence and human review

Trainer demonstrates the mechanism and evidence gate; learners execute the detailed procedure from the Learner Guide and lab pack, then save evidence and a human approval decision.

Day total: 8 hours.

Day 2 · 8 training hours

Topic 3: Script analysis, revision and multimodal production

Time	Topic and evidence	Slide range	Method
3 hours	Topic 3: Script analysis, revision and multimodal production; Labs 05–06; artifacts and review evidence	94–133	Visual models, worked story artifacts, guided lab and review
Guided practice	Lab 05: Script parsing and diagnostic analysis · structured script, readability report, tone matrix and continuity graph	95–111	Follow the LG procedure; save evidence and human review
Guided practice	Lab 06: Revision, voiceover and rough-cut plan · revision diff, audio script, production manifest and rough-cut checklist	115–131	Follow the LG procedure; save evidence and human review

Trainer demonstrates the mechanism and evidence gate; learners execute the detailed procedure from the Learner Guide and lab pack, then save evidence and a human approval decision.

Topic 4: Bias, authenticity and responsible creative control

Time	Topic and evidence	Slide range	Method
3 hours	Topic 4: Bias, authenticity and responsible creative control; Labs 07–08; artifacts and review evidence	136–175	Visual models, worked story artifacts, guided lab and review
Guided practice	Lab 07: Bias, culture and factual integrity · counterfactual test, cultural notes, claim ledger and corrected draft	137–153	Follow the LG procedure; save evidence and human review
Guided practice	Lab 08: Authenticity, privacy and disclosure gate · safe prompt pack, authenticity statement, disclosure decision and release record	157–173	Follow the LG procedure; save evidence and human review

Trainer demonstrates the mechanism and evidence gate; learners execute the detailed procedure from the Learner Guide and lab pack, then save evidence and a human approval decision.

Topic 5: Copyright, provenance and release governance

Time	Topic and evidence	Slide range	Method
2 hours	Topic 5: Copyright, provenance and release governance; Labs 09–10; artifacts and review evidence	178–217	Visual models, worked story artifacts, guided lab and review
Guided practice	Lab 09: Rights, licences and similarity review · rights classification, licence matrix and similarity corrections	179–195	Follow the LG procedure; save evidence and human review
Guided practice	Lab 10: Provenance and final release packet · audio rights ledger, provenance manifest, remediation plan and final gate	199–215	Follow the LG procedure; save evidence and human review

Trainer demonstrates the mechanism and evidence gate; learners execute the detailed procedure from the Learner Guide and lab pack, then save evidence and a human approval decision.

Day total: 8 hours.

Assessment briefing

WA: ten open-ended K1–K10 questions, 60 minutes. PP: three practical tasks, A1–A9, 60 minutes. Candidate papers only are delivered through LMS-TMS. The assessor keeps model answers private.
